

IAEA Careers Information Session

with University of Illinois Urbana-Champaign

November 29, 2023 *at* 5 pm CT

Register [here](#)

Housed at Argonne National Laboratory, IAEA Programs works with the Department of State to serve as an interface between the IAEA and the US nuclear community, promoting peaceful uses of nuclear energy and technology, and supporting nuclear safety and security.

The IAEA Careers Program encourages well-qualified US citizens to join the IAEA's professional staff in non-Safeguards departments and assists interested US candidates in applying to [open positions](#). Interested experts may wish to [subscribe](#) to the job alerts distributed by IAEA Programs at Argonne.

The United States government sponsors US citizens to work for the IAEA as [Cost-Free Experts](#), [Junior Professional Officers](#), and [Interns](#). IAEA Programs coordinates these sponsorships for the IAEA's non-Safeguards departments and Offices Reporting to the Director General.

IAEA Programs at Argonne promotes a diverse, inclusive, equitable and accessible environment. The IAEA is committed to gender equality and we support the Agency's mission to achieve gender balance. Women and gender nonconforming people are encouraged to apply. All qualified applicants are considered.

Current Opening: [Technical Cooperation Regional Divisions, TCAF](#); Apply by November 20, 2023
